Aug 2007-Jun 2011

EXPERIENCE

AETHER INTELLIGENCE LLC | Volunteer

New York, NY

AI Product Manager

June 2026-Present

- Lead technical product analysis for an agentic AI financial advisor, defining product roadmap with epics and features across multi-agent workflows, RAG capabilities, and banking/trading integrations
- Drive AI architecture decisions and requirements for a multi-agent platform, designing scalable orchestration patterns supporting six specialized agents and shared knowledge services
- Define user personas and RAID logs for an AI-powered financial platform, establishing requirements and delivery plans

UNITED NATIONS in partnership with Microsoft Copilot and Fordham University

New York, NY

AI Consultant

Jan 2026-May 2026

- Collaborated with cross-functional teams to gather business requirements, scope, and implement AI-driven solutions
- Built an AI-powered search platform aggregating data from 40+ UN repositories, improving project discoverability
- Reduced 5+ hours/week of manual effort by implementing semantic search, enabling cross-border collaboration

LONDON STOCK EXCHANGE GROUP (LSEG)

Bangalore, India

Product Owner | Product Manager

Aug 2024-Aug 2025

- Led product discovery with 15+ stakeholders, aligning vision and defining high-impact features
- Owned and shaped product roadmap and backlog for 4+ initiatives, translating the needs into prioritized user stories
- Improved data maturity by 25% by defining product features around 50+ critical data elements
- Defined product strategy and KPIs for regulatory traceability initiative and improving decision-making visibility

DEUTSCHE BANK OPERATIONS INDIA

Pune, India

Product Owner | Product Manager

Feb 2022-Aug 2024

- Partnered with technology, operations, and product teams to identify pain points and deliver solutions ensuring 100% regulatory compliance and operational excellence

- Owned backlog prioritization, created process maps and led end-to-end delivery, improving release efficiency by 30%
- Led automation of JFSA OTC derivative reports, delivering 3 weeks ahead of time with less than 2% portal rejections and mitigating reputational risk
- Drove stakeholder alignment and change adoption across business teams

ON DEMAND AGILITY SOFTWARE PVT. LTD.

Pune, India

Lead Senior Business Analyst

May 2021-Feb 2022

- Led product discovery, impact analysis, and functional design for regulatory reporting solutions, ensuring timely compliance and complete control coverage

MSCI INC.

Pune, India

Technical Program Manager

Oct 2020-May 2021

- Coordinated cross-functional – Application Development, Data Management and Research – resources to support the creation, launch and maintenance of key products and services

TATA CONSULTANCY SERVICES LTD

Pune, India

Business Analyst

Jul 2011-Oct 2020

- Gathered requirements and authored BRDs, FSDs, RAID logs, user stories, and UAT scenarios with defined acceptance criteria to support successful delivery of financial systems

PROJECTS

DEEP LEARNING

- Developed and compared machine learning and deep learning models to predict data privacy violation by breach type and statute
- Evaluated model performance using cross-validation and F1-score across multi-label, and multi-class tasks

NATURAL LANGUAGE PROCESSING

- Developed NLP-based models to predict stock price movement from earnings call transcripts using TF-IDF, sentiment, and linguistic features
- Trained and evaluated ML models using cross-validation and macro-F1 score
